ABOUT APTMetrics

360-Degree Feedback

Our multi-source feedback services are driven by our Web-based system, 360Metrics[®]. 360Metrics is designed to produce a measurable impact on employee and organizational performance. This award-winning system leverages cutting-edge technology to provide a user-friendly, custom-fit solution for developing talent. It provides actionable, developmental feedback for each participant as well as aggregate analyses for organizational interventions. 360Metrics data has

been shown to drive competitive performance and productivity, reduce the gap between current and future performance expectations, and ultimately, increase corporate revenues.
